

Sociology Summer Project

Read/watch the news over the next two months.

You need to find a minimum of two stories –relating to the Family, Education, Crime or Beliefs. You can find relevant stories that you can use for the homework on my twitter feed [Sociology@ShelleyC](#) ([@ShelleySocWynn](#)).

If you find them online, you should make a note of the web address and, if possible, copy the story into a word document/print it out or email a copy of it to me.

You need to write a paragraph about each of your news stories exploring its content and its relevance to Sociology.

For the first lesson you need

Your two news stories (you can bring more than two but you don't need to analyse them all) and your two paragraphs analysing the stories.

If you want to email your work, my email is: Elaine.Wynn@shelleycollege.org
