

Shelley College is an amazing place to learn and work and I am extremely proud of being Principal. Students and staff are fantastic and by working together with parents, I'm confident we can make an already outstanding college even better. I believe it is our job to help students leave Shelley College fully equipped with the life skills, experiences and educational outcomes to have a happy and successful future.

As Principal, but also as a parent, I regularly ask myself 'would that be good enough for my son or daughter?' If the answer is 'no' then we implement the necessary changes to drive continued improvement. I believe that this philosophy helps keep our students at the centre of what we do and how we do it.

All staff work tirelessly to ensure our philosophy of 'Valuing People, Supporting Personal Best' is at the centre of everything we do. My belief is that people achieve the best outcomes when they enjoy what they're doing, feel safe and are rewarded for their commitment and success. As a school we will therefore support and invest in our students and staff, whilst maintaining high expectations.

At times these high expectations may mean that your son or daughter is challenged in terms of how they interact and respond to other people, how hard they are working and whether they are following our Commitment to Learning behaviour policy. If this does happen, I would ask for your support to help achieve a positive outcome for your child. Experience shows that when we work together the chances of success significantly increase.

Finally, I would like to take this opportunity to thank all parents who continue to support the college and I look forward to working closely with you to help your child enjoy school, have a positive experience and achieve their Personal Best in everything they do.

Dave Wadsworth
Principal
